the stevia people

#### Steviose

Stevia sweetener range made with a proprietary process. Steviose 100, our flagship product, contains >99.5% of Rebaudioside A and delivers clean sweetness without bitter notes or licorice aftertaste. It is best suited for deep calorie reductions and demanding applications. The range also includes less specified materials to meet all cost-in-use targets. Steviose products are Kosher and Halal certified and comply with US FDA GRAS and JECFA quality standards for stevia. Steviarome is a range of clean label natural flavors. The products in this range are both Kosher and Halal certified.

# BERJÉ
